

Brothers,

In the institute's website, we have added an icon: "Necrology 1821 up to the present". (right side of your screen)

This necrology is the complete list of the deceased Brothers of the institute since its foundation so that they be remembered in your daily prayer.

In the website of the institute we already find information about the deceased brothers from the early 80s ("anniversaries/necrology") and then again, in "Death notices" since the General Chapter of 2012.

You will notice that in this complete list, the name in religion of the Brothers who made profession before the early '60s appear in capital letters. The Christian name is also written in capital letters for those who professed after the '60s.

We also invite you to consult the corresponding ANNUAIRE of the institute if you want to learn more about the brothers deceased since 1906. For those brothers who have passed away before 1906, the Necrology – 1821 to 1961 as compiled by Brother Stanislas (Rolland Roux), general archivist (1952-1980), is an excellent source of information.

Bro. José Ignacio Carmona Olló, S.C.  
Superior general
